PROFESSIONAL SUMMARY

Full Stack Software Engineer experienced in building scalable web applications and fintech products using React, Next.js, Node.js, NestJS, and PostgreSQL. Experienced building production-ready software and exploring blockchain technologies through Stellar and Midnight, with a focus on secure payment solutions and developer tools.

EXPERIENCE

RiseIn **Feb 2026 – Present**

RiseIn Stellar Journey to Mastery & Midnight Program *remote, Global*

- Built LumenShake, a full-stack cross-border payroll platform using Next.js, Node.js, PostgreSQL, Stellar, Soroban, and MoneyGram APIs, enabling employers to send USDC payroll globally with seamless local fiat cash-out through MoneyGram.
- Developed end-to-end payment infrastructure by integrating Stellar wallet authentication, Soroban smart contracts, backend APIs, and secure transaction workflows, bridging modern web applications with blockchain technology.

Sen4a Recruiters **Mar 2025 – Sep 2025**

Backend Engineer Intern *Remote / Tokyo, Japan*

- Engineered scalable backend services for a recruitment platform using **TypeScript**, **NestJS**, **PostgreSQL**, **GraphQL**, **Knex.js**, and microservices, optimizing database performance, API efficiency, and caching strategies.

PROJECTS

Orka — AI Financial Operating System | *Stack: Next.js 16 · TypeScript · Node.js · Supabase · Stellar* **Jun 2026**

- Built and launched **Orka**, a production-ready **AI Financial Operating System** for freelancers and agencies, unifying client management, proposals, invoicing, milestone tracking and **Stellar-powered payments** into a single platform.
- Owned the end-to-end product lifecycle—from architecture and full-stack development to documentation and launch—growing the product to **100+ waitlist users** and **150+ LaunchLlama upvotes** while building an active community across X and Discord.

VibeCode — AI-Powered Browser IDE | *Stack: React.js, Redux, Node.js, Docker, Redis, AWS* **Feb 2026**

- Built **VibeCode**, an AI-powered browser IDE enabling developers to write, execute, and preview full-stack applications without local environment setup.
- Engineered a secure execution environment using **Docker**, **Node.js**, and **Redis**, integrating **Monaco Editor**, AI-assisted code generation, terminal support, and live preview for an interactive development experience.

Predicare — AI-Powered Clinical Decision Support | *Stack: Python, TensorFlow, Flask, React.js* **Sep 2025**

- Built **Predicare**, an AI-powered healthcare assistant that supports doctors with **symptom analysis**, **heart disease risk prediction**, and AI-assisted clinical decision-making through a unified platform.
- Engineered a unified backend integrating multiple **machine learning models** with an interactive web interface for **real-time risk assessment** and AI-assisted doctor consultations.

SKILLS

- **Languages:** TypeScript, JavaScript, Rust, Java, Python, SQL.
- **Backend:** Node.js, NestJS, Express.js, REST APIs, GraphQL, gRPC, Microservices, Clean Architecture.
- **Database:** PostgreSQL, Redis, MongoDB, Supabase, Prisma, Knex.js.
- **DevOps & Cloud:** AWS, Docker, GitHub Actions, Bitbucket CI/CD, Linux.
- **Frontend:** Next.js, React, Tailwind CSS.
- **Engineering:** System Design, API Design, Database Design, Authentication, OAuth 2.0, Event-Driven Architecture, Open Source Contribution — **Remote Collaboration:** Slack, Notion, Linear, Zoom.

EDUCATION

Abdul Kalam Technical University

B.Tech in Computer Science and Engineering(Data Science)

Ghaziabad, Uttar Pradesh

Nov 2022 – Jun 2026

ACHIEVEMENTS

- **Stellar Ecosystem:** Earned **\$130** through the Stellar Journey to Mastery builder program by shipping blockchain applications.
- **Built & Launched Orka:** Production-ready AI Financial OS with **100+ waitlist users**, **150+ LaunchLlama upvotes**, and an active community on X and Discord.
- **Research Publication:** Published research work on Integrating Multi-Modal Data with Explainable Machine Learning for Early Multi-Disease Detection”.
- **Certifications** - OCI DevOps Professional, OCI Generative AI Professional
